

Networking Team Challenge

August 16, 2022

The Goal:

Amass as many points as you can no later than the **cut-off time of 7:00pm** and have all team members reach the final destination together at the exact same time (must check in together - all teams are 4 people).

The team that finishes with the most points wins \$2,000.00 cash (\$500 per team member) plus one free VIP ticket to the 2023 BDSS. The team can decide amongst itself who to give it to (maybe most valuable member?) If you lose/damage this sheet, it is also online at www.billiondollarsellersummit.com/race.pdf

Rules:

You may travel by foot, scooter, Uber/Lyft, taxi or a team member's car or rental car if they have one. Everything is close or within a couple miles of downtown at most. But walking/running to all is not advised.

The final destination is in East Austin not too far from Downtown. There may be other locations but be sure to go to the East location.

You will need to piece together the clues below to figure out the name of the final destination. You'll get the letters as instructed in the clues then do a scrabble type guessing game to put them in the correct order to spell the name of the final destination. Please note some letters may be used more than once, and some letters may not be used at all in the name of the final destination.

You may do the clues in any order, but some take longer than others to finish and are worth a lot more points. So strategize wisely from a points, team member and logistical point of view.

You don't have to do every clue. You may not be able to do them all in 5 hours (or maybe you can do them much faster?). But if you strategize wisely, you can knock out some of the easy ones on the way to ones worth more points,

No cheating or impeding other teams. With the exception of Clue #8, the team must stay together and cannot split up. Remember you must all reach the final destination together at the same time.

Participate at your own risk and please be careful. If possible, everyone should take their own photos, but try to have one master phone or camera with team photos for points tallying. Stay hydrated with water.

If your team becomes a total disaster, or if you have an emergency, please call Mark at 512-695-9486 or call Amber at 512-949-0123.

Points for finishing time:

First team to cross gets 30 points, second team gets 29 points, and so on subtracting 1 point per place of team finish. All team members must present themselves and all point related items at the same time at final destination to place.
